Jaipur, Rajasthan

## PROFESSIONAL SUMMARY

Mobile App Developer with 1 year 10 months of hands-on experience designing, building, and maintaining production Flutter applications for iOS and Android. Experienced in taking features from UI implementation through API integration, state management, testing, debugging, release support, and post-release improvements.

Delivered production mobile applications, including an astrology product with 1M+ Google Play downloads. Strong in Dart, Flutter, Kotlin, Jetpack Compose, Bloc/Cubit, Clean Architecture, Firebase, Supabase, REST APIs, JSON, WebSockets, and real-time data flows. Focused on responsive interfaces, maintainable code, performance, and reliable user experiences.

## KEY COMPETENCIES

- Flutter and Dart
- Kotlin and Jetpack Compose
- Responsive UI development
- Clean Architecture
- Bloc / Cubit state management
- Firebase and Supabase
- REST APIs and JSON
- WebSockets and real-time data
- Unit, widget and integration testing
- Performance optimization
- Debugging and release support
- Git / GitHub collaboration

## PROFESSIONAL EXPERIENCE

**Appic Software LLP** **Sep 2025 - Present**

**Flutter Developer**

Develop and maintain responsive production mobile applications using Flutter, with a focus on performance, scalability, and reliable iOS and Android releases. Apply Clean Architecture and MVC, MVP, and MVVM patterns to keep production code maintainable, testable, and easy to extend.

Build predictable application flows with Bloc/Cubit and integrate Firebase and Supabase for authentication, storage, and real-time data. Integrate REST APIs and JSON-based services, including WebSockets. Apply unit, widget, and integration testing practices to improve reliability and maintainability.

Use Git/GitHub, VS Code, Android Studio, and Xcode to support collaborative development, debugging, and release workflows.

## SELECTED PROJECTS

### Balaji Astro Guide

**View on Google Play**

Vedic astrology app featuring free Janam Kundli, Pooja services, horoscope predictions, astrology chat, and user-focused spiritual guidance. Reached 1M+ downloads on Google Play.

### Sicfit

**View on Google Play**

Personal fitness companion for workouts, progress, and health. Supports custom workout routines, nutrition logging, live coaching sessions, progress tracking, and a more consistent fitness journey.

### Happiest Team

**View on Google Play**

Community platform for building, managing, and growing communities. Includes member engagement features and tools that help communities organize activity, strengthen participation, and expand their reach.
